

SERVICE NOTICE

DATE: APRIL 14, 2015

**RIDE: GRAVITRON, STARSHIP ALIEN ABDUCTION
AND CENTRIFUGE**

**SUBJECT: TRAP DOOR MICROSWITCH
INSTALLATION**

Due to the risk of employees being injured by standing in the trapdoor of the Gravitron/Starship/Alien/Centrifuge rides, it is required that the trapdoor be closed at all times. Some agencies require that the trapdoor be permanently closed by welding.

Some agencies require that the trapdoor be accessible as a second means of egress. If this is the case, attached is a system to interlock the trapdoor with the drive system so that when the door is open the drive system is disabled and the operator cannot energize the main motor with the trapdoor open.

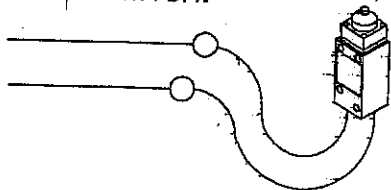

One system or the other is required to be performed.

!! IMPORTANT SERVICE BULLETIN !!

DANGER:
DISCONNECT POWER BEFORE
WORKING ON WIRING!!!

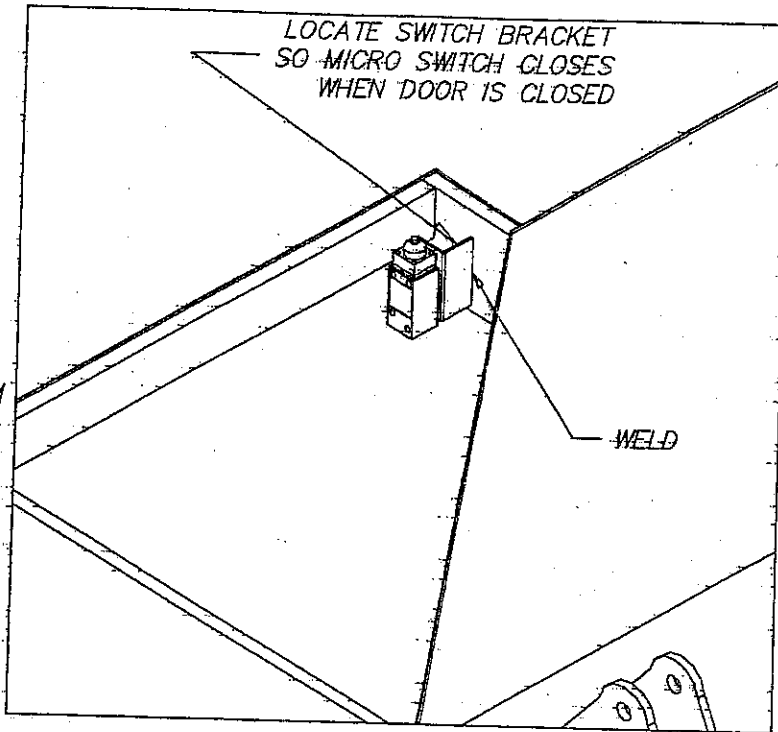

ELECTROCUTION HAZARD
IS POSSIBLE!!!

1. REMOVE WHITE WITH RED STRIPE FROM COMMUTATOR.
2. ATTACH TO ONE WIRE FROM MICROSWITCH.
